What is The House Flipping School MeetUp?

House Flipping School MeetUp Mission Statement

The House Flipping School MeetUp was formed to provide education and networking for real estate investors in any stage of their real estate investing careers. House Flipping School MeetUps provide a setting for local real estate investors to network and learn more about the ethical practice of buying, responsibly renovating and selling real estate through educational lectures, group discussions, website tutorials and special events. Attendees will learn responsible real estate investing to improve both the local Massachusetts real estate communities and economies, while learning high impact strategies and tactics to become more profitable real estate investors.

Corporate Membership - \$1,000

Will your business benefit from advertising with us? Our MeetUp consists of residential real estate investors who invest locally in Massachusetts. We meet on the third Thursday of each month, send weekly email newsletters, post sponsor advertisements on our website, and network with each other. Our members are serious real estate investors who use services related to real estate, buying, renovating and selling. Any product or service related to buying, selling, repairing, maintaining, renting or financing in the real estate investing business can be potentially purchased and used by our members.

As a corporate member, you'll receive the following benefits:

- Corporate member listing on our website
- Corporate link in our email reminders
- Corporate signage on our "Deal Table"
- Exclusive vendor table at all MeetUps
- Industry exclusivity
- On-stage corporate announcements
